Big Size

Big Quantity

Big Money

1% reduction in fuel = \$30 billion over 15 years

Big Connections

A photograph of a wind turbine on the ocean at sunset. The sun is low on the horizon, creating a bright glow and reflecting on the water. The sky is filled with soft, colorful clouds. The wind turbine is silhouetted against the bright sky.

Big Data

22,500 GE Wind Turbines
1,000 Sensors per Turbine
=
22,500,000 sensors

Our Company

a Scientific company

Combining **Science, Technology** and **Art** for a sustainable society

13,300 passionate people

- 117 nationalities
- One global R&D / 56 labs
- Game changing **3DEXPERIENCE** solutions

190,000 enterprise customers

- 12 industries in 140 countries
- >10 million on premise users
- >100 million online users

3,500 partners

- Software, Technology & Architecture
- Content & Online Services
- Sales
- Consulting & System Integrators
- Education
- Research

Long-term driven

- Majority shareholder control
- **Revenue: \$ 2.8 Bn***
- Operating margin: 31.5%*

* Figures as of FY 2013 / Non-IFRS

Olivier Ribet – Vice President, High Tech Industry For Dassault Systemes

- Helping **high-tech companies worldwide** adapt to fast-paced market trends and deliver **innovative electronic experiences** for their end-customers by using **Dassault Systèmes' 3DEXPERIENCE platform**.
- Fastest growing industry market at Dassault Systèmes.
- **Serving** the needs of **6 customer segments** and support the transformation of their **business processes**.
- Delivering value to the High-Tech Industry on **sustainable innovation** through **smart products and systems, embedded electronics and software, IT and communications infrastructures**.

Product Management and the Speed of Innovation

Todd Rytting

Chief Technology Officer

Panasonic

North America

Panasonic is global company. What are some of the challenges associated with managing the diversity of global product requirements?

Culture-Specific User Interface

Panasonic

U.S. Home Energy Management Displays ~2011

Panasonic

Product Management and the Speed of Innovation

David Bingham

Design System

Curator

General Electric

Open innovation and crowd sourcing are disruptive forces for product management. How is GE taking advantage of these opportunities?

Olivier Ribet

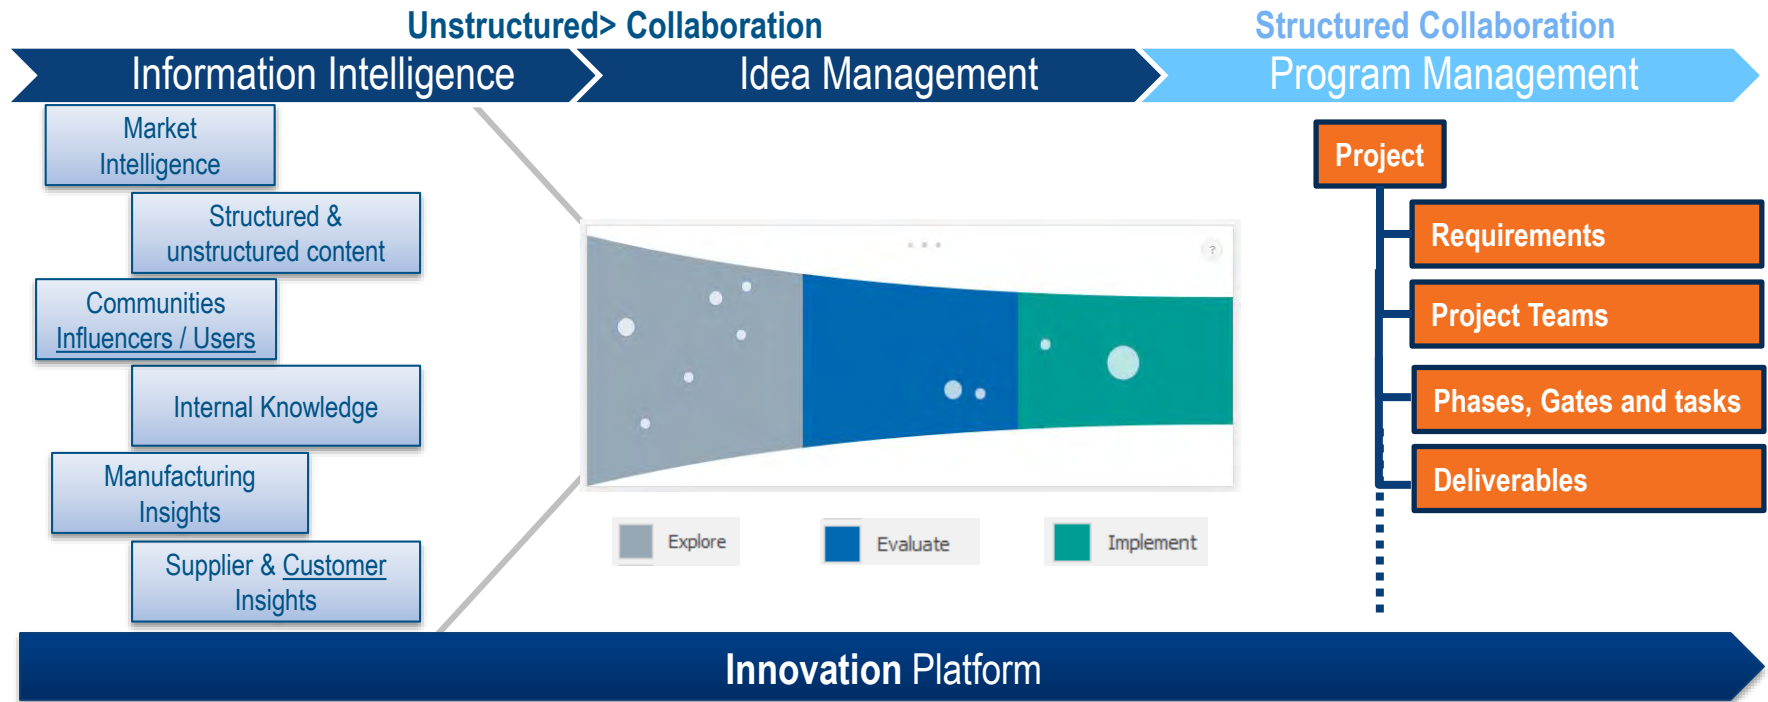

Vice President,

High Tech Industry

Dassault Systèmes

How will the product management function change to accelerate innovation?

From Insights to Execution

Information Flow as a Competitive Advantage

David Bingham

Design System

Curator

General Electric

What are some of the problems that have to be addressed to share data and information more rapidly?

Information Flow as a Competitive Advantage

**What do you think are
some of the keys to
accelerating the flow of
information?**

Todd Rytting

Chief Technology Officer

Panasonic

North America

Information Flow as a Competitive Advantage

Olivier Ribet

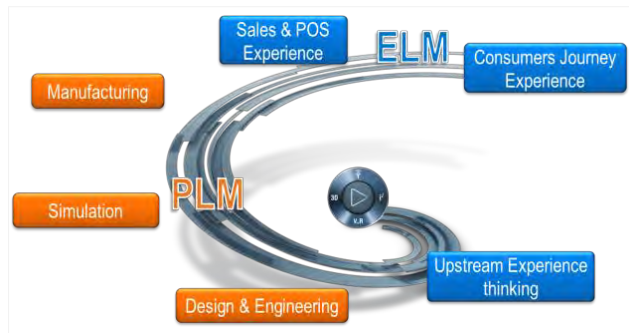

Vice President,

High Tech Industry

Dassault Systèmes

What systems can help organizations break down silos and share information?

High-Tech Industry Solution Experiences

3DEXPERIENCE Powers...

... our Brand Applications...

...for 12 Industries

Social

From Mono-discipline Excellence...

...To Multi-Discipline Excellence

Todd Rytting

Chief Technology Officer

Panasonic

North America

How frequently do you think that leading companies will upgrade apps, cloud services, or firmware for products in the field? How will companies manage that change?

David Bingham

Design System

Curator

General Electric

What issues have to be addressed to add fast paced software product management processes to existing, slower moving product development process?

Olivier Ribet

Vice President,

High Tech Industry

Dassault Systèmes

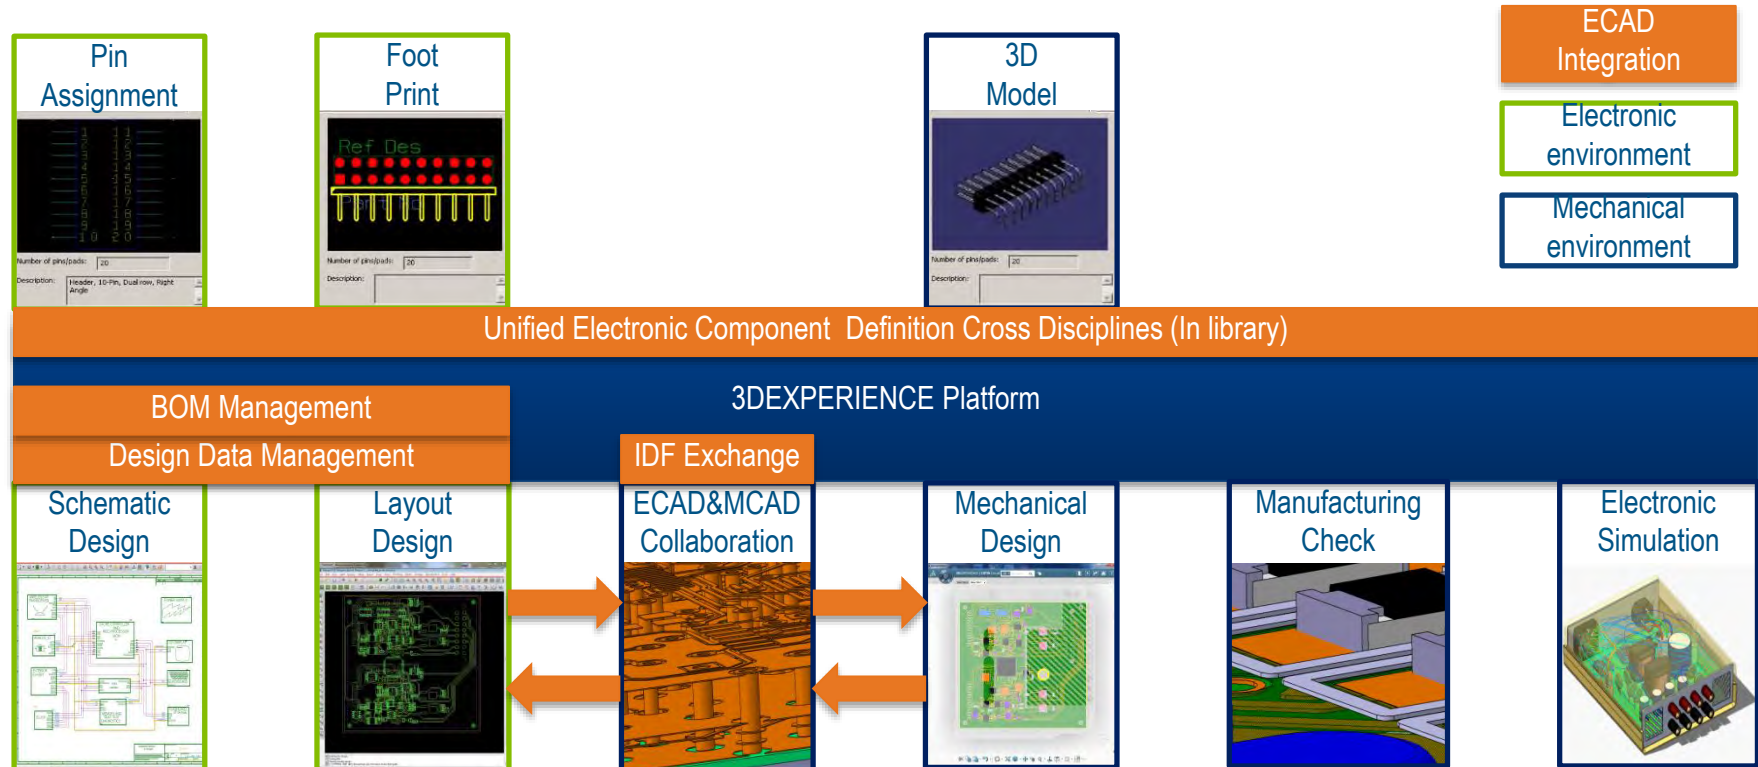

**What are some of the
key processes that
must be developed to
manage complexity?**

Integrated Design Experience for Smart Products

The example of Collaborative Hardware Design

Integration of Electronic and Electro-mechanical design processes (note similar process exists for Software)

Importance of Data for Business Process Improvement

Todd Rytting

Chief Technology Officer

Panasonic

North America

What are some of the different ways that data from smart products can be used by different parts of the organization?

Importance of Data for Business Process Improvement

David Bingham

Design System

Curator

General Electric

Describe the characteristics of the ideal data interface tool for your organization.

Importance of Data for Business Process Improvement

Olivier Ribet
Vice President,
High Tech Industry
Dassault Systèmes

Companies that can mine product data to gain insights will lead the market. How can companies make data accessible?

Search & Reveal from Information Intelligence

Customer Interaction
Collect & Engage

Digital Assets
Reveal, Capitalize & Reuse

Machine data
Product usage & trace

Todd Rytting

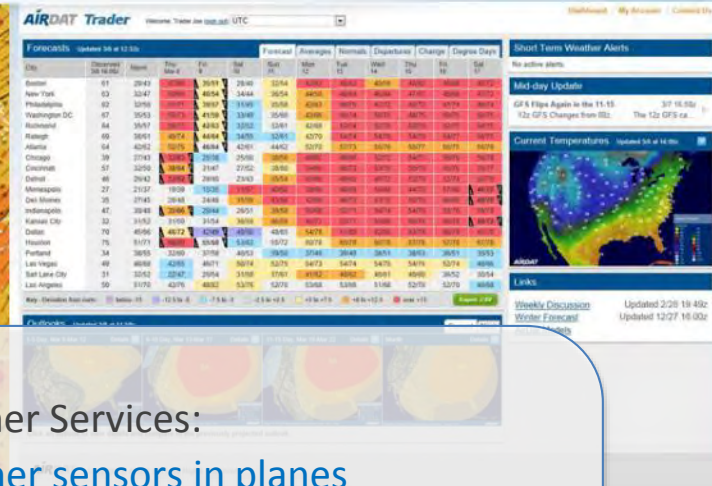

Chief Technology Officer

Panasonic

North America

Different value added service may be bundled together to drive mix, share, or price. How will value added services evolve?

Panasonic Avionics— High Accuracy Weather Forecasting

Panasonic Weather Services:

- Installs weather sensors in planes
- Collects and analyzes weather 20x more data than conventional methods

Result:

- More accurate worldwide forecasting

Panasonic

A Better Life, A Better World

David Bingham

Design System

Curator

General Electric

Many value added services will open up opportunities for partnerships and new business models. What challenges are involved with executing new business models and partnerships?

Olivier Ribet
Vice President,
High Tech Industry
Dassault Systèmes

**What capabilities must
be acquired in order to
succeed in the smart
home market?**

Adaptive Experience: Software management in the age of IoT

eService Experience
